Problem Space

Sometimes it's painful to manage the wait list for meetings. People want to meet in small groups instead of 1:1 dating.

Research Insights

How valuable is it to hang out with small groups?
Do you think it is valuable to hang out with the local people?
As you travel or visit, how helpful will it be to meet the local people in other cities?
Is it helpful to have a management system for a waitlist?

Solution Explanation

To solve our target users' pain points, we developed Group-Five, a web-based application that allows to meet with small groups to **hang out as happy hour or dinner instead of dating app**. Group-Five will contain key features such as choosing a location where you want to meet and providing messages to join the group and wait-list.

Group-Five matches your group that who has similar vibe and interest with you.
